The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1 and 15 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Marsh et al. in view of Romine et al. 5501788.

This is the same rejection made previously, incorporated herein by reference.

Claims 3 and 16 are rejected under 35 U.S.C. 103(a) as being unpatentable over Marsh/Romine above, taken with Tamaki.

This is the same rejection made previously, incorporated herein by reference.

Applicant's arguments filed 1/24/05 have been fully considered but they are not persuasive.

The argument that Marsh does not teach an inert atmosphere overlooks section 2.2.7. Further, using inert atmosphere is conventional. The different explanation given by Marsh does not make the present process patentable, given that the steps can be the same. It is not clear why the A240 extract is different-especially since applicant uses A240. Nor is it clear what results are allegedly present on specification pg. 15. The claims do not appear to be limited to them. Claim 3 should be changed to depend upon claim 1.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

Any inquiry concerning this communication should be directed to examiner Hendrickson at telephone number (571) 272-1351.
